
Gaussian data, p=100, T=20
mean SURE(α) over 4000 draws
true risk R(α), closed form
Monte Carlo loss (500 draws)
oracle α* = 0.885
2α* (risk-reduction bound)
grey: individual SURE(α) curves
Frobenius risk
shrinkage intensity α
Multivariate t(10) data, p=100, T=20
mean SURE(α) over 4000 draws
true risk R(α), closed form
Monte Carlo loss (500 draws)
oracle α* = 0.912
2α* (risk-reduction bound)
Frobenius risk
shrinkage intensity α
